Just listen to our good brother of THE Ashland News: "Henry Clay's fine statue, which stands in the Courthouse Square at Lexington will be duplicated at the World's Fair." Why, friend Miller, we had no idea that you drank such an inferior article of tangiefot. When was that statue placed in the Courthouse Square at Lexington?

THE cost of the strike at Homestead since the lull has come is a matter for speculation. The product of the mills when in full blast is \$39,000 a day. The expenses range from \$19,000 to \$30,000 a day. The cost of labor will average \$17,000 a day. When the mills are running on full time the material used costs \$4,000 a day. The company's loss is about \$7,000 a day, and the men lose about \$15,000 for every idle day.

HER NICK BISCUITS.
"Are my biscuits light, John?" asks the charming young wife.
"As she smiles on her husband, and he, with emphasis answers, 'They're lovely, my wife—
"As light as the foam of the sea."

"Is the steak cooked to suit you?" she gently inquires.
"And he says as he smiles 'y' nodes.
"It might have been cooked at celestial fires,
"And is tender enough for the gods."

"And the coffee—that pleases you too, does it, dear?"
"She asks overjoyed with his praise,
"Which, rather than strains of sweet music
"Should hear,
"I never drank better," he says.

So she sits down beside him, and with him partakes,
"And the right no doubt will confess
"That if John tells her lies in the answers he makes,
"He's a gentleman nevertheless."

YESTERDAY'S STORM.

Things Looked Squally, But We Were Not Severely Hurt.

It looked very much like Maysville and vicinity would be visited by another storm yesterday afternoon. The clouds had an angry and cyclonic look but passed over without causing any more inconvenience than a scare.

There was an awful rainfall, accompanied by hail and considerable wind, which did some damage, principally to shadethres and window shutters. A large tree in front Joseph Wallingford's residence on Third street was humped and the shutters on the East side of N. Cooper's warehouse on Front street were perched off promiscuously.

The street car company as usual came in for its share of the trouble, the armature at the plant being again burned out by the lightning. Traffic on the line was stopped for several hours, relegating the suburban citizen back to the custom of ancient times, when the only way to get home was to walk.

The lightning also struck the residence of Mrs. Frank Beckett on Union street, Fifth Ward. It knocked a part of the chimney off and ran down into the kitchen scattering the stovepipe all over the room. Nobody was hurt.

JOHN H. LOVE, who comes to Maysville as the emissary of a very respectable dry goods house in New York, raised Cain and the neighborhood of his residence in Covington a few nights ago because his wife had gone on a short visit to a neighbor. His rage was not quelled until he was carted to the lockup in a patrol wagon. Yesterday his case was called in court and he asked a continuance. As he threatened to "do" any witness who might appear against him, he was placed under a peace bond of \$250.

THERE was a dance among the colored folks at Mayslick night before last at which Charlotte Savage of Maysville gave an exhibition of her fighting qualities. She announced that she had come to do up Mollie Taylor, also of this city, and proceeded to carry out her threat. She struck Mollie in the face with a rock, cutting an ugly gash about the mouth. She was brought before Squire Grant yesterday and the Squire gave her a dose of \$20 and costs, in default of which she was sent to jail to be confined at hard labor.

A KANSAS farmer has figured out the cost of an acre of corn as follows: To plant and cultivate an acre of corn with the implements now in use requires just three quarters of a day. To mature an acre of corn now, at \$2.50 a day for a man and team, you have \$1.875. It will cost you \$1.50 to put it in a crib, so you see to mature and secure an acre of corn it costs \$3.375. Now add to this \$2.50 for interest on \$25 invested in land, and you have \$5.875. Now take your crop of this year which will average 40 bushels, at 30 cents a bushel, and you will have \$12, a net profit of over \$6 per acre left.

A Gallant C. and O. Conductor.

An uncommon incident occurred on the Eastbound passenger train coming up from Cincinnati last night, which excited the interest and, at the same time, aroused all the sympathies of those on board.

A lady passenger who was suffering from the sickness to which some persons are liable when riding on the cars, was leaning back in her seat with her head resting on the sill of the window, which was raised. Suddenly the window came down with a crash and caught her hand squarely across the ends of her fingers. The window by some means fastened itself and all efforts of the willing and eager fellow passengers to raise it were fruitless. The train crew were equally powerless. The Conductor went to get an ax to pry the obstreperous window up, but as ill-luck would have it the key to the case where that implement was kept could not be found. Realizing that something would have to be done to release the unfortunate lady from her painful position, he struck the glass door with his fist, not heeding the serious injury which must necessarily befall his own hand. His hand and wrist were frightfully lacerated, but he procured the ax and opened the window.

Dr. A. G. Browning of this city was on the train and expressed the opinion that the lady would lose the ends of the fingers on the injured hand.

We would like to know the name of the Conductor who so heroically sacrificed his own comfort for that of another, so that ladies traveling alone on his train might rest assured that they are under the care of a gentleman.

Neither could the name of the unfortunate victim of the peculiar accident be learned.

DYNAMITE

Used as a Weapon of War By Striking Miners.

Bridges Burned Down and Cars Laden With Explosives.

Everything Surrendered to the Union Men—Mine Owners Held as Hostages—The Company Preparing to Take Non-Union Men Out of the Mines.

WARDNER, Idaho, July 14.—Outwardly all was quiet here Wednesday night, but it was the quiet of determination and desperation. The strikers had a day of uninterrupted victory. They had only to demand and receive, and as a result they are in complete possession of the mines and mills of the Bunker Hill and Sullivan and Sierra Nevada Mining Cos. The non-union men have been driven out of the country, and the men, rendered desperate by the long strike and flushed with victory, are talking of meeting the militia and regular troops and fighting them with rifle and dynamite. All of Tuesday bodies of armed men gathered on the hill and in the canyon surrounding Wardner. They came down from Wallace on flat cars and hand cars and helped themselves to whatever they needed in the way of transportation. They began the day's programme by marching several hundred strong upon the property of the Bunker Hill and Sullivan, threatening Supt. V. M. Clement with destruction of the entire property unless he surrendered the works, discharged his non-union men and allowing them their own way.

Mr. Clement had no alternative. The mill is now loaded with dynamite and could be destroyed upon a minute's notice. The strikers also turned their attention to property of the Sierra Nevada with like results. It is reported that a car of dynamite has been sent down the railroad track for the purpose of blowing up the bridges of the railroad and preventing the troops from coming into the country. The miners expected the troops to reach Harrison at 3 o'clock and looked for their arrival here in the afternoon, but as they have not yet arrived it is feared that some mishap has befallen them, or else that they are proceeding with the utmost caution. The miners have sent out the car of dynamite, sent from Ft. Sherman. The excitement here is intense. Many exaggerated stories being circulated, it is thought, for the purpose of terrorizing the citizens and concealing the real movements of the strikers.

PORTLAND, Ore., July 14.—The Union Pacific has just received advices from Cour d'Alene that the Northern Pacific railroad bridge, together with several hundred feet of track, were blown up by the strikers west of Mullan Wednesday morning. The company is preparing to take all non-union men out of the mines Wednesday afternoon to Tekos. The union men assert that the moment the troops appear on the scene they will blow up the Bunker Hill and Sullivan, Sierra Nevada and Gem mines. The burning of the bridge near Mullan will hold the troops there unless they march to Wallace and Wardner, which is about ten miles. It is now reported that union men have taken Van B. Delashutt, of Portland; William Sweeney and other mine owners and will hold them as hostages until the trouble is settled. The wires are in bad shape, and it is almost impossible to get to any point two miles west of Mullan. When they were ordered back to Missoula, several bridges were burned west of Mullan to prevent the troops from crossing. All was quiet at Wallace Wednesday night and no trouble is probable at present.

The Weather.
